Gain a Level 2 Certificate in Financial Trading on this 3 day programme.

This qualification will allow students to attain a solid foundation in understanding the financial markets and roles within the financial services industry. It includes the required elements to progress onto further qualifications or work effectively in junior supporting financial trading roles. The training will be delivered by OSTC, a pioneering global trading company using the world class ZISHI digital learning suite.

“Anyone, anywhere, can learn and trade”

Combining the latest technologies with accredited training, OSTC offers a centralised knowledge suite that gives students a kick start or existing traders a welcome acceleration.

Students who pass the course will receive a recognised Ofqual certified qualification. The course is 100% portfolio based, concentrating on the practical application of knowledge.

**Book early to avoid disappointment.
