off School
Losing jobs
problems from covid
dying
No money
sick
Litter
masks

What I have picked.

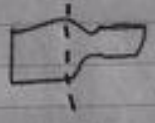

I decided to help people who have lost their jobs By giving them some money. I have made Ava's ATM !! If you dont have any money you cant buy food or pay for things.

What I used.

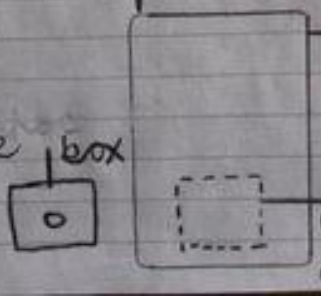

1 Big box
1 Shoe box
paint
Scissors
Tape
silver foil
bottle
Stickers

What I did.

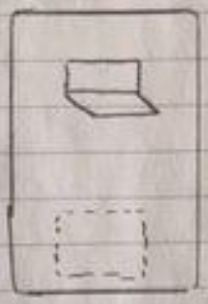

- Cut the top off of the bottle.

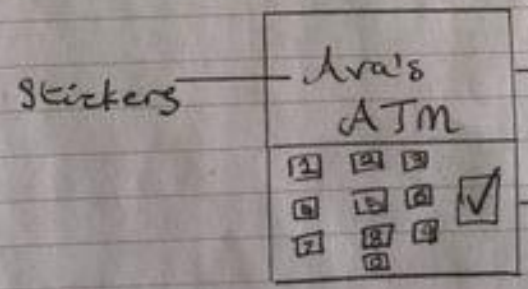

- Cut the right size out of the big box.

- Fold the cut out card from the box in half
- Tape it to the box

- Put silver foil to the card for the screen.
- Put paper with numbers for the keypad

- Put the bottle top off into the box. that was cut middle of for beer token

- Paint the box in lots of colours to cheer them up.
- Wrap the shoe box in foil.
- put the shoe box in the hole and fill with money

<u>How it works.</u>

People who have no money send a letter to me and I send them a money token. Then they go to my ATM office put in their token, type in their pass word for the cash and walk away happy.
